

Dear Sirs;I urge you to reject the NAB's petition 04-160 and to support XM's ability to provide the programming that I want. I pay for my service and XM has the right to provide what I ask for. I don't listen to the so called free radio because I don't like the content. If they took care of their own business they wouldn't need the government to save their butt. The government has more important things to attend to.
